

LESSONS LEARNED REPORT	
Project Name	Workflow [Shift scheduling app]
Project Sponsor	Mr Yogesh Sharma
Project Manager	Mr Yogesh Sharma
What went well during the project?	
<ul style="list-style-type: none"> • Documentation and manager feedback was good • Customer needs and requirements were followed • Research into programming was easy and educational • Designs from the lofi/hifi prototypes were useful and made the projects design easier • Objectives were reached. Managers can manage schedule and employees can choose shift. • The app was mostly functional and did not crash with errors 	
What did not go well during the project?	
<ul style="list-style-type: none"> • Late start during programming stage • A couple of errors encountered during programming stage • Lack of a reliable environment to view and edit code all together as a team 	
What should we do differently next time?	How will this be done?
Adding display customability to software	Getting detailed requirement of what themes customer wants to use
Focus a bit more on security	Introduce salting and hashing rounds into software Also create a more reliable way to sign up as manager
Use of good coding environment	Using Visual Code liveshare feature can help access and edit code easily
