

ISSUE LOG			
<b>Project Name</b>	WorkFlow		
Issue #	Description	Priority	Status
1	We are facing a challenge with our project related to sourcing images for our webpage. The main issue is to find suitable images that are not only free to use but also allowed for educational purposes. The uncertainty surrounding the copyright status of potential images is causing concerns about legal and ethical considerations. To address this issue, our team is actively exploring reputable platforms for royalty-free images and investigating licensing agreements to ensure compliance.	Low	Has started
2	We have paid for the image on our main page, as we were unable to find free images that are not subjected to copyright restrictions. Hence, we won't use any more images on other pages.		Completed
