

PROJECT STATUS REPORT	
Project Name	WorkFlow
For Week Ending	Week8 Date: October 24, 2023
Project Status	Green 
Status Description	Keep working on the high-fidelity prototype
Activities—During the Past Week	
we focused on creating a high-fidelity prototype of our software.	
Activities—Planned for Next Week	
Next week, we'll be focusing on developing the prototype for our software, so it can become a reality. We'll also be having open discussions among team members to improve various aspects of the prototype. By doing this, we can ensure that the prototype meets our project goals and user requirements. The process of building the prototype and having ongoing discussions will help us to address any concerns, ideas, or improvements that come up. This approach will improve the quality and functionality of our software.	
Project Issues	
No issue found in this week.	
Project Changes
