

STAKEHOLDER ENGAGEMENT PLAN		
Project Name	WorkFlow	
Name	About the Stakeholder	How to Engage the Stakeholder
Yogesh Sharma	ENSE 374 Professor	<p>Meet requirements: the stakeholder has given us a list of requirements our product must meet. We will discuss how our product will meet these requirements with the stakeholder and ensure that our solutions are acceptable.</p> <p>To effectively engage with the stakeholder, we will meet with him multiple times over the course of the project. We will take his feedback into consideration and apply it to our project, in order to meet his requirements.</p>
