PROJECT STATUS REPORT

Project Name	WorkFlow
For Week Ending	Nov 13, 2023
Project Status	Yellow 😐
Status Description	Unclear requirements: it caused delays as we may need to revisit and revise our work. Our team lacks the necessary skills or experience: Advanced JS(node js), Database(MongoDB). The tasks may take longer to complete. The project involves complex technologies: authentication Events beyond anyone's control: a group member was away for a family funeral.

Activities—During the Past Week
